A Brief History of The Villas of Riverbend

The Villas at Riverbend Condos was a project of The EPCON Group, a Central Ohio builder/developer that had built 41 communities at that time.

Ground was broken in July 1999, for the construction of the clubhouse and the first set of units that were to be used for models and first occupants. The first owner to move into Riverbend in March 2000 was John Gilbert at 215 Stonebend Drive, followed closely by Bob and Linda Knox at 197 Stonebend Drive and Bob and Pat Foor at 217 Stonebend Drive, all in Building #26.

In November of 2001 the 75% level of occupancy was obtained precipitating the transition of control to the Board of Directors from the developer.

The construction of the final building was completed in the spring of 2002 with 35 buildings and 140 units.
